# ABOUT US

Thomifab Global Limited is a fully Nigerian-owned engineering and project services company, established in March 2017 with a strategic focus on delivering high-quality, cost-effective, and dependable services across the Oil, Gas, and Power sectors.

Since inception, Thomifab has positioned itself as a total solutions provider—offering integrated services across engineering, fabrication, construction, mechanical maintenance, instrumentation, project management, and technical manpower development.

The company is driven by a commitment to innovation, efficiency, local capacity building, and international quality standards, making it a trusted partner for both government and private-sector clients operating in highly regulated and technically demanding environments.

With operations spanning multiple states across Nigeria and a growing portfolio of high-impact projects, Thomifab is uniquely equipped to support clients through the entire project lifecycle—from concept and design to commissioning and ongoing maintenance.

# KEY MILESTONES

**2017:** Company established and executed first structural fabrication project in Bayelsa.

**2018–2020:** Expanded operations to include instrumentation, fire system maintenance, and structural works across NDPHC and Azikiel projects.

**2020–2021:** Entered the oxygen and acetylene plant installation space; launched large-scale manpower training and fabrication projects.

**2022:** Secured multiple contracts with ExxonMobil contractors, Cummins West Africa, and Ibom Power Company.

**2023–2024:** Delivered mechanical, electrical, and fabrication services for Dangote Sugar Refinery, WRPC, and others—further diversifying into industrial equipment rehabilitation and emission control systems.

# CORPORATE STATEMENTS

## *Our Vision*

To become the leading indigenous provider of integrated engineering, fabrication, and project execution services across Nigeria and beyond—renowned for excellence, safety, innovation, and a commitment to sustainable client success.

## *Our Mission*

To deliver the highest quality engineering and technical services in the Oil, Gas, and Power sectors—solving client challenges with innovation, precision, and integrity—through the expertise of our highly qualified team, state-of-the-art technologies, and strict adherence to industry standards.

# CORE VALUES

## INTEGRITY

We operate with transparency, accountability, and professionalism in all our engagements, earning trust from our clients and partners.

## INNOVATION

We embrace cutting-edge technology and creative engineering solutions to meet evolving industry needs and deliver superior results.

## QUALITY

We uphold rigorous quality control processes to ensure that every project meets the highest technical and operational standards.

## SAFETY

We maintain a strong safety culture, driven by certified procedures and proactive risk management, to protect lives, assets, and the environment.

## EMPOWERMENT

We are committed to advancing local capacity by investing in community engagement, training, and inclusive growth.

# ORGANIZATIONAL STRUCTURE

Thomifab Global Limited operates with a lean yet highly effective organizational structure, designed to ensure agility in operations, clarity in reporting, and efficiency in project execution. The company is structured to support multi-site projects, regulatory compliance, and simultaneous service delivery across engineering, fabrication, construction, and maintenance domains.

The leadership team brings a wealth of technical and managerial experience, overseeing specialized departments that handle every aspect of project delivery—from design and procurement to execution, safety, and reporting.

## Key Departments and Roles

- **Managing Director** - Provides strategic direction and oversees company-wide decision-making, growth planning, and stakeholder engagement.
- **Company Secretary** - Manages legal compliance, corporate governance, and statutory documentation.
- **Technical Partners** - External collaborators who provide specialized engineering, technology, or equipment support for complex project delivery.
- **General Manager** - Coordinates all departments, ensures operational efficiency, and manages reporting lines across safety, admin, technical, and operations.

## Key Departments and Roles

- **Operations Manager** - Oversees daily field operations, project logistics, manpower deployment, and equipment mobilization.
- **Admin Manager** - Handles documentation, internal communications, staff coordination, and support services across the company.
- **Safety Coordinator** - Enforces HSE policies and ensures compliance with client, industry, and regulatory safety protocols across all project sites.
- **Technical Manager** - Leads engineering planning, project design, technical assessments, and quality implementation across services.
- **Engineering Workforce Unit** - Covers workforce planning, mechanical systems, electrical engineering, and cost estimation for projects.
- **Quality Control Engineer** - Ensures quality compliance, conducts inspections, and implements QA/QC protocols during fabrication and construction.
- **Logistics Superintendent (x2)** - Manages procurement coordination, equipment handling, site material delivery, and fleet deployment for efficient project execution.

Thomifab  
Global  
Limited

... Building a stronger tomorrow, today

# ORGANIZATIONAL CHART

# TECHNICAL & OPERATIONAL CAPACITY

## Infrastructure and Facilities

Thomifab Global Limited operates from a strategically located base equipped with the necessary infrastructure to support its core operations in fabrication, maintenance, logistics, and field deployment. The company's facility includes:

- Fabrication yard with welding and steel handling sections
- Equipment storage and dispatch area
- Mechanical and electrical tool bays
- Training and planning room for engineering teams
- Secure administrative offices with digital project tracking systems

This infrastructure enables Thomifab to independently execute multi-phase projects with minimal outsourcing, ensuring control, speed, and accountability.

## Human Capital and Technical Expertise

Thomifab's operations are powered by a skilled workforce comprising:

- Certified engineers (mechanical, civil, electrical, and instrumentation)
- Experienced welders, fabricators, fitters, and riggers
- Field maintenance experts and quality control officers
- Trained HSE personnel and supervisors
- Logistics and project coordinators

The internal team is supplemented by technical partners for specialized projects, allowing Thomifab to scale rapidly when required without compromising quality.

## Equipment and Tools Inventory

Thomifab owns and maintains a comprehensive range of equipment and tools needed for on-site and off-site execution:

- Welding Machines (TIG, SMAW, MIG types)
- Cutting Equipment (plasma, oxy-fuel)
- Pressure Testing Equipment
- Valve Testing and Servicing Kits
- Air Compressors and Generators
- Material Handling Tools (cranes, forklifts, slings)
- Fabrication and Pipe-Laying Tools
- Measuring and Calibration Instruments

These assets are maintained under a scheduled preventive maintenance program to ensure operational reliability at project sites.

## Scalability and Project Readiness

Thomifab's operational model is built for scalability - from small-scale maintenance projects to full EPC contracts. The company can mobilize resources across multiple states simultaneously, backed by:

- Modular project teams for parallel deployment
- In-house logistics coordination
- A tested procurement framework
- Digitally tracked job progress and HSE compliance

Whether executing work for public sector entities, IOCs, or private industrial plants, Thomifab ensures readiness, adaptability, and compliance across all project phases.

# SERVICE OFFERINGS

Thomifab Global Limited delivers a wide spectrum of engineering, technical, and operational services tailored to meet the rigorous demands of the Oil, Gas, Power, and Industrial sectors. Our service offerings are structured to support both turnkey project execution and specialized interventions, ensuring flexibility, quality, and compliance at all levels.

## Scalability and Project Readiness

Thomifab's operational model is built for scalability - from small-scale maintenance projects to full EPC contracts. The company can mobilize resources across multiple states simultaneously, backed by:

- Modular project teams for parallel deployment
- In-house logistics coordination
- A tested procurement framework
- Digitally tracked job progress and HSE compliance

Whether executing work for public sector entities, IOCs, or private industrial plants, Thomifab ensures readiness, adaptability, and compliance across all project phases.

## Engineering Services

We provide complete engineering support, from concept to construction. Our engineering services include:

- Piping and Instrumentation Diagram (P&ID) Design
- Mechanical Design and Structural Re-modification
- Engineering Cost Estimation and Workforce Planning
- Foundation Design for Equipment and Structures

## Mechanical & Structural Services

### A. Fabrication Services

- Structural steel platforms and pipe racks
- Storage tanks and pressure vessels
- Industrial ducting and exhaust systems
- Piping and pipe-laying (carbon, stainless, HDPE, GRVE)

### B. Maintenance Services

- Field and workshop-based overhaul of turbines, compressors, pumps, and generators
- Routine maintenance and emergency repairs for rotating equipment
- Turnaround maintenance and shutdown support
- Boiler and valve maintenance (manual, actuator, and safety valves)

### C. Corrosion Control & Rehabilitation

- Sand/grit blasting and protective coating applications
- Structural repairs for corroded tanks, vessels, and pipelines
- Surface preparation and industrial painting

## Electrical, Instrumentation & Control Systems

- Instrument calibration, installation, and servicing
- Electrical panel installation, rewiring, and upgrades
- Leak sealing and valve servicing
- Installation of process control and safety systems
- Preventive maintenance of E&I infrastructure

## Inspection, Testing & Certification

Thomifab provides industry-grade inspection and certification services using certified engineers and modern diagnostic tools:

- Non-Destructive Testing (NDT)
  - Ultrasonic Inspection (UI)
  - Magnetic Particle Inspection (MPI)
  - Dye Penetrant & Radiographic Testing (X-ray)
- Pressure Testing
  - Flow lines, tanks, vessels, X-mas trees, valves
- Leak Detection & Sealing
  - On-site sealing of pressurized systems
- Calibration & Certification
  - Gauges, recorders, flow meters, PSV valves, analyzers

## Procurement & General Supplies

We offer reliable procurement services for a wide range of industrial tools, equipment, spare parts, and consumables, including:

- Pipes, valves, pumps, instrumentation
- Safety and protective gear
- Electrical and mechanical components
- OEM-specified parts for clients across Nigeria

## Technical Manpower Supply & Training

- Deployment of qualified personnel for construction, fabrication, and maintenance projects
- Local workforce development in host communities
- On-site and off-site welding, fitting, and industrial operations training

## Equipment Leasing

We provide short- and long-term leasing of critical project equipment, including:

- Welding and cutting machines
- Compressors and power generators
- Testing and calibration kits
- Scaffolding and rigging tools
- Pressure testing units

## Specialized Installations

- Oxygen and Acetylene Plant Fabrication & Installation
- Emission Control System Setup
- Security Infrastructure: Wash Towers, Lighting Poles, Guard Posts
- Industrial Machinery Integration (Generators, Air Compressors, etc.)

## HDPE Butt Fusion Welding

We offer advanced HDPE Butt Fusion Welding services for pipeline and industrial fluid transfer projects. Our team utilizes industry-standard butt fusion machines to deliver high-integrity joints in High-Density Polyethylene (HDPE) pipes and fittings, suitable for demanding environments in the oil, gas, power, and water sectors.

# PROJECT PORTFOLIO

Thomifab Global Limited has a proven record of successful project delivery across Nigeria's Oil, Gas, Power, and Industrial sectors. Since 2017, the company has executed over two dozen critical infrastructure, maintenance, and fabrication projects for public institutions, multinational corporations, and private industrial clients.

This section highlights our capacity to deliver safely, on schedule, and to technical specification—regardless of project size or complexity.

S/N	Year	Project Description	Location	Client	Status
1	2017	Fabrication & Installation of Overhead Water Tank Stand	Gbarain, Bayelsa	Salvation	Completed
2	2018	Fabrication/Modification of Piling Machine Urger	Azikiel Refinery	Azikiel Petroleum	Completed
3	2018	Maintenance & Installation of Fire Hydrant Gate Valves	Gbarain Power Plant	NDPHC	Completed
4	2018	Polyethylene Coating on Stainless 900 Elbow	-	Daewoo	Completed
5	2019	Fabrication & Installation of Security Wash Towers (2 Sets)	Azikiel Refinery	Azikiel Petroleum	Completed
6	2019	Assembly of Concrete Batching Plant	Azikiel Refinery Site	Azikiel Petroleum	Completed

S/N	Year	Project Description	Location	Client	Status
7	2019	Training of 72 Community Youths on Welding & Grinding	Thomifab Yard	Obunagha Community	Completed
8	2020	Design & Installation of Perimeter Lighting Poles (3 Locations)	Bayelsa, Edo, Delta	Oil Serve	Completed
9	2020	Maintenance & Welding of Gas Turbine Exhaust Diffuser	Gbarain Power Plant	NDPHC	Completed
10	2021	Fabrication & Installation of Oxygen Plant (50 Cubic Units)	Abia, Delta	New-Byx, Frankchris	Completed
11	2022	Air Compressor Tier Conversion (450HP Doosan)	QIT, Akwa Ibom	ExxonMobil (Belloth & Gas)	Completed
12	2022	Overhaul of Perkins 4000 Series Generator	Ikot Abasie	Ibom Power Company	Completed
13	2022	Anchor Bolts Welding for 17 Storage Tanks	Gbarain	Azikiel Petroleum	Completed
14	2023	Rehab of MCC Panels & 500KVA Generator	WRPC, Warri	Warri Refinery	Completed
15	2023	Fabrication & Welding of Storage Tanks, Nozzles & Piping	Azikiel Refinery	Azikiel Petroleum	Completed
16	2024	Fabrication & Installation of 1250KVA Dual Emission System	Onitsha	Cummins	Completed
17	2024	Fabrication of Random Sugar Cane Transport Equipment	Adamawa	Dangote Sugar Refinery	Completed
18	2024	Fabrication & Installation of 10m(L) Security Watch Tower	Abia State	Geometry Power Co.	Completed

S/N	Year	Project Description	Location	Client	Status
19	2021	Maintenance of Fire System: FM 200 Suppression System	Azikiel Refinery	Azikiel Petroleum	Completed
20	2021	Installation of 2" & 3" Diameter Pipes for Fire Fighting	Azikiel Refinery	Azikiel Petroleum	Completed
21	2020	Installation of CCTV Surveillance System	Azikiel Refinery	Azikiel Petroleum	Completed
22	2022	Assembly & Installation of Industrial Oven	Warri	Warri Refinery	Completed
23	2020	Installation of Lighting Poles & Perimeter Security Infrastructure	Abia	Geometry Power Co.	Completed
24	2022	Fabrication of Pressure Vessel & Associated Piping	Ikot Abasié	Ibom Power Company	Completed
25	2022	Valve Overhaul & Testing	QIT, Akwa Ibom	ExxonMobil	Completed
26	2022	Fabrication & Installation of Pipe Racks	Azikiel Refinery	Azikiel Petroleum	Completed
27	2021	Installation of Security Barriers & Guard Posts	Azikiel Refinery	Azikiel Petroleum	Completed
28	2021	Maintenance & Rehabilitation of Diesel Generator System	Azikiel Refinery	Azikiel Petroleum	Completed

# REGULATORY COMPLIANCE AND CERTIFICATIONS

## Certificate of Incorporation

- Registered with the Corporate Affairs Commission (CAC)
- RC Number: 1399745
- Date of Incorporation: March 2017
- Legal Structure: Private Limited Liability Company

## Tax Clearance Certificate

- Thomifab maintains an up-to-date Tax Clearance Certificate
- Issued by the Federal Inland Revenue Service (FIRS)
- Confirms full tax compliance and eligibility to bid for federal, state, and multinational contracts

## Department of Petroleum Resources (DPR) Registration

- Fully registered with the DPR (now under NUPRC)
- Authorized to operate and render services within Nigeria's upstream and downstream petroleum industry
- Certificate includes categories for engineering, maintenance, and manpower support

# Health, Safety & Environmental Manual

- Thomifab has developed and adopted a robust HSE Management System, documented in its internal HSE Manual
- This includes:
  - Safety guidelines for fabrication and site work
  - Emergency response protocols
  - Worker safety induction procedures
  - Environmental protection and waste management policies
- The manual is actively implemented on all project sites and reviewed periodically to reflect updates in HSE standards and client requirements.

## Other Statutory Documents

- Company Organizational Chart
- NSITF (Employee Compensation Registration)
- ITF (Industrial Training Fund) Compliance
- PENCOM Registration
- Local Content Compliance Support

# IMAGE GALLERY

This section includes images of projects carried out and delivered by Thomifab including images of our engineers at work while undergoing different projects.

# APPENDICES

This section includes verified documentation that supports Thomifab Global Limited's legal status, operational readiness, regulatory compliance, and technical procedures.

FEDERAL REPUBLIC OF NIGERIA  
**PERMIT TO OPERATE AS AN OIL INDUSTRY SERVICE COMPANY**

**SPECIALIZED CATEGORY**

PERMIT NO: NUPRC/OGISP/25/4308802/N411926

This Permit is hereby granted to

THOMIFAB GLOBAL LTD

of 2 LAS VEGAS STREET, RUMUIBEKWE PORT HARCOURT,

RIVERS, NIGERIA

to render the service to the Oil Industry in the Category listed hereunder:

ONSHORE PIPELINE LAYING

- Laying of oil and gas pipeline
- Pipeline Fabrication/Construction

This Permit expires on the Wednesday, April 22, 2026

Fee Paid: ₦ 250,000.00

Dated 22nd day of April 20 25

Commission Chief Executive

This permit does not cover "Supply of Expatriate Manpower" in any guise

NOGICJQS/2025/N/16597

**NIGERIAN CONTENT DEVELOPMENT AND MONITORING BOARD**

**NIGERIAN OIL & GAS INDUSTRY CONTENT JOINT QUALIFICATION SYSTEM (NOGIC JQS) REGISTRATION CERTIFICATE**

This is to certify that :-

**THOMIFAB GLOBAL LIMITED**

*Of NO 6A UNGBOUWARIBO COMP OBUNAGHA GBARAIN, YENAGOA, BAYELSA STATE.*

Has been registered on the NOGIC JQS platform as a Service Company in the Oil & Gas Industry to provide the following service(s):

**ONSHORE PIPELINE LAYING**

Issued on this day: May 9, 2025

The Board reserves the right to revoke this Certificate in the event of the violation of any of the provisions of the NOGICD Act and amendments thereto, Or where the Board discovers that the Certificate was obtained by misrepresentation of facts.

This Certificate expires on May 8, 2026

.....  
**Executive Secretary**

It pays to pay your taxes..
